Innovative Solution

Integration

Our **integration of hardware and software** streamlines operations, enabling seamless data flow for enhanced decision-making and fleet management efficiencies.

Precision

Cutting-edge hardware ensures accuracy.

Control

Real-time fleet management capabilities.

The Integrated Online Platform

Geo-fencing

Implement advanced geo-fencing to monitor zones and ensure compliance with set rules for fleet management.

Automation

Automate critical event communications to enhance responsiveness and improve operational efficiency in fleet control.

Multi-platform Access

Access real-time fleet data from any device, ensuring informed decisions are made promptly and efficiently.

What Makes Khulu Digital Unique

Warranty Protection

Does not void your vehicle warranty during installation.

Fuel Monitoring

Tracks fuel usage even if the engine is off.

Safety Features

Limits or limps vehicles instead of cutting engines.

Offline Speed Limiter

Innovative and safe engine management

Enhanced Engine Control

Our Offline Speed Limiter V1 **ensures safety** by limiting engine speed without cutting it. It's compatible with Euro 2 engines and operates independently of original equipment, ensuring **reliable performance**.

OFFER

Online Speed Limiter

Advanced features for fleet safety

Groundbreaking Capabilities

The Online Speed Limiter V2 offers **unmatched performance** for Euro 2 engines without ECUs, ensuring access to critical engine data, dynamic speed enforcement, and enhanced safety features for your fleet.

COBBLE

Why Choose Us

Innovative solutions for your needs

Trendsetting Innovations

Our **innovative solutions** are designed to set trends in the fleet management industry, ensuring that your operations are always at the **forefront of technology** and efficiency.

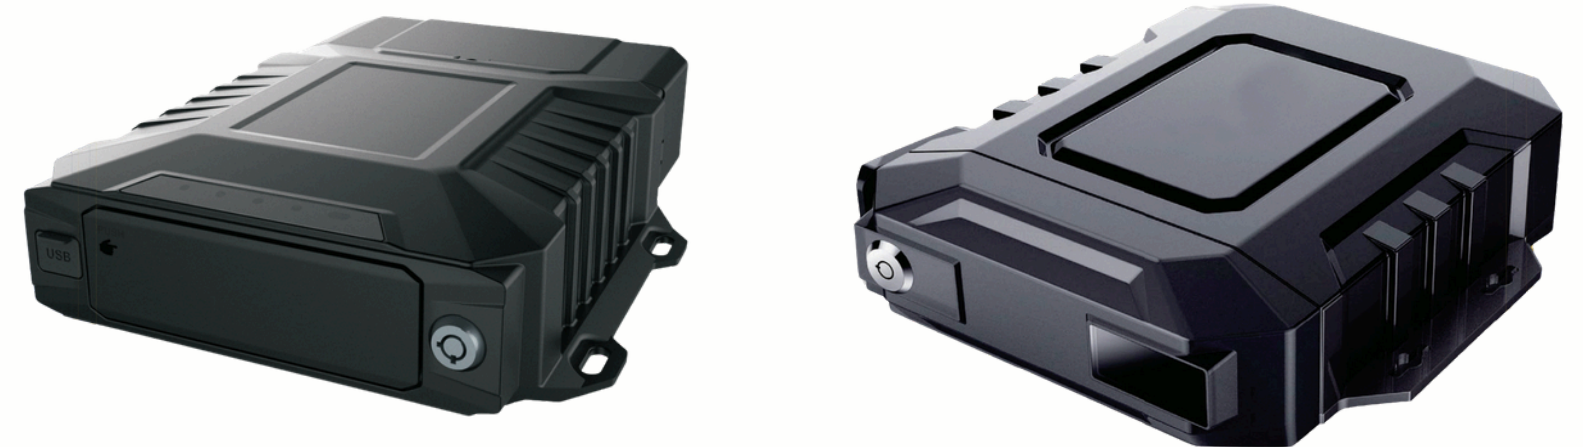

Tailored Support

We provide **exceptional around-the-clock support**, ensuring that you receive the tailored assistance needed to optimize your fleet management and maintain safety at all times.

Dash Cams & DVRs

Advanced Surveillance Solutions

Explore our **innovative range** of dash cams and mobile DVRs, including the MettaX MC202L, G40 Pro, and more, designed for superior fleet security and monitoring.

Compatible Camera Range Overview
